

# Creekside Trail

coupled with  
River's Edge Trail  
is an easy 3 km hike

From the West Washroom Shack head west on the main park road and cross the creek. At the fork in the road stay left and look for a grassy trail near a lone spruce tree on the left side of the road. Follow this trail and you will find the Creekside Trail sign leading you into the woods alongside the creek.

The trail is an easy hike and follows the course of the creek.

Walking the trail in the fall offers a stunning collage of colors.

As you emerge from the trail, you have two options

## 1 Head back to the park

Turn right and travel back along the grassy trail alongside the pond & meadow.

Be sure to enjoy the sights and sounds of wildlife at the pond.

2

## Connect to River's Edge Trail

Turn left and follow the grassy trail into a wooded area. River's Edge sign is posted on a tree to your right.

The trail leads west along the river's edge and eventually down onto the riverbed.

Take the boat launch road up to connect to the main road and wander north back to the park.
