

Quarry Trail

coupled with
a walk around the park
is an easy 4.5 km hike

From the West Washroom Shack head west on the gravel road and cross the creek. Find the Quarry Trail sign at the fork in the road directing you to go right. Ascend the hill and keep right as you travel towards the north-west corner of our property.

Swing south and follow a grassy trail with a gentle descent, offering a panoramic view of the entire river valley.

After a short downhill scramble, Take a peek to the west and enjoy the high bank vistas of the meandering river as it flows around the river islands.

Continue on the trail south-east along the upper bank and find your way to the river bed.

To complete the loop, travel north along the road and find your way back to the park for a well deserved refreshment.
